Based in: Rome, Italy (open to relocation)

Education

Sapienza University of Rome — Rome
PhD Student. — Nov. 2020 - May 2024

- PhD Advisor: Prof. Emanuele Rodolà.
- Research interests and experience: deep learning for **music generation**, **separation** and **note transcription**, through **diffusion models** and **transformers**. Vector **quantile regression** with **neural optimal transport**. **Diffusion** models applied to **graph** neural networks .
- Thesis Title: "Deep Learning Applied to Vector Quantile Regression and Music Generation and Separation"

Technion - Israel Institute of Technology — Haifa
Visiting PhD Student. — 1 March. 2023 - 31 August 2023

- PhD Advisor: Prof. Alex Bronstein.
- Research topic: vector quantile regression, a statistical inference method based on optimal transport.

Sapienza University of Rome — Rome
M.S. in Computer Science — Sep. 2017–Jan. 2020

- Thesis Advisor: Prof. Emanuele Rodolà
- Thesis title and summary: "Hamiltonian Spectrum Alignment and Applications to Partial Functional Correspondence". It presents a method for localizing a region of a 3D shape or reconstructing 2D shapes, exploiting only the information contained in the laplacian spectrum of the shapes.

Sapienza University of Rome — Rome
B.S. in Mathematics — Sep. 2013–Jul. 2017

- Thesis Advisors: Prof. Flavio Chierichetti and Prof. Alessandro Panconesi
- Thesis title and summary: "Probabilistic Algorithms for Dimensionality Reduction in Euclidean Spaces". Study of a generalization of Johnson-Lindenstrauss lemma for random projections.

Publications

Asterisk (*) means equal contribution. I underlined my name if I presented the talk or poster.

Work Experience

- **Sapienza University of Rome** May. 2024 - Aug. 2024
  Research Contract
- **WSENSE Srl.** Jul. 2020 - Oct. 2020
  Underwater Internet of Things Researcher
- **Sapienza University of Rome** Feb. 2020 - Jul. 2020
  Underwater Internet of Things Researcher at SENSES Lab, Computer Science Dept.

Skills and Tools

- **Programming Languages:** Python, Matlab, C++.
- **Machine Learning Frameworks and Libraries:** Pytorch, Tensorflow, Jax, Flax
- **OS:** Linux, MacOS, Windows
- **Compute Facilities Used:** AWS, University Clusters, Personal server (assembled and maintained by me).
- **Miscellaneous:** Git, Github, Docker.
